

“Congratulations to all the students who received their GCSE grades this morning.

A fantastic set of results which reflect the hard work of the students over their school careers. The students should be proud of what they have achieved. These results will provide the students with the foundations for their futures, both immediate and long term. We are looking forward to the vast majority joining us in the 6th form to continue their studies.

As a school we are delighted with the results, when students achieve such great results, it is a pleasure to be able to celebrate this success with them. These results are even more impressive in light of the changes to the examination system that have taken place over the last two years, the students and staff have coped with these amazingly to produce a very strong set of results.

I want to thank parents for their support for the students and the school over the last year and beyond, your role is so important in enabling the students to achieve what they have today.

A final congratulations and well done to all the students, we are very proud of you, the individuals you have become, the results you have achieved and your contributions to the life of the school.

A full breakdown of the school’s results will be published on the website in September once all results have been finalised.”

Ian Hawkins
