### 2019/2020 Residential Trips

In order to help parents to try to plan their finances, the following list contains the planned residential trips for the next academic year. In addition to this, a number of day trips and conferences will be arranged which will tend to be aimed at Y11, 12 & 13 students.

We hope that all eligible students will be able to attend the curriculum trips whereas the enrichment trips are entirely optional. Please note that the list is subject to change and prices are estimates.
