

What impact will ongoing uncertainty about exam content in summer 2021 have on teachers' ability to confidently predict grades?

We deliver A Levels, Level 3 BTEC qualifications and the EPQ. The outcome of the Ofqual review of exam content for summer 2021 remains uncertain and teachers are unclear about the content they will be expected to deliver in order to prepare students for final examinations. Not knowing whether teachers will have to rush to catch up on missed content from the period of school closure in order to fit the entire curriculum in before final exams and whether Ofqual will accept proposals to remove curriculum content in subjects we offer serve to make predicting grades particularly difficult for the Class of 2021.
