

Accessing Google Meets on your mobile device

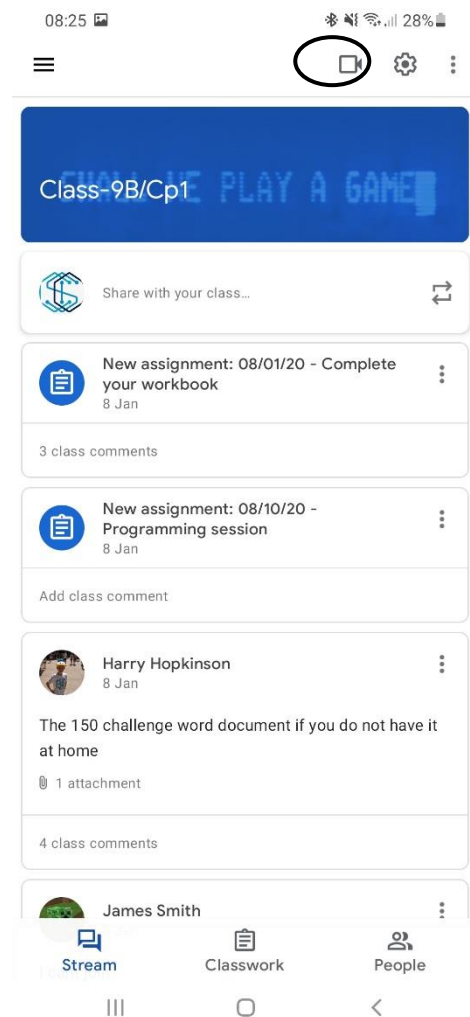

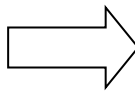

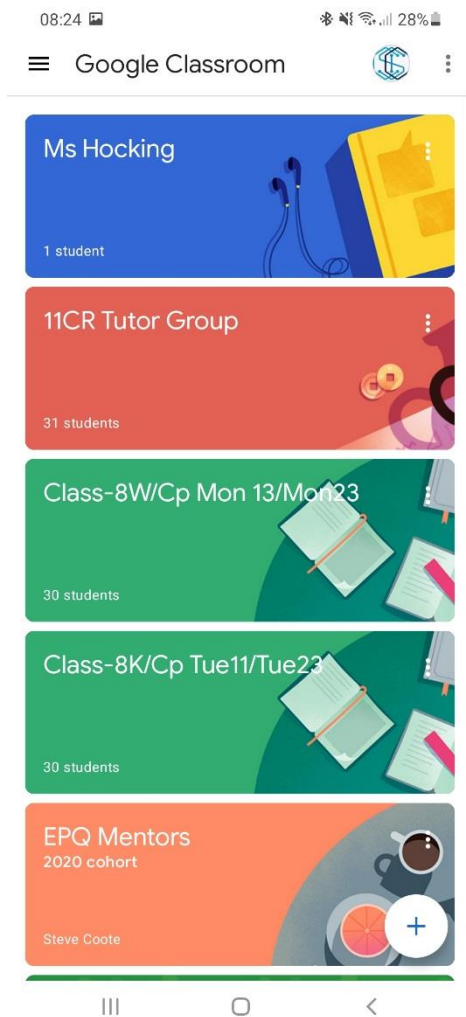

Please download two apps on your Mobile device. **Google Meet** and **Google Classroom** can be found on your app store on Android or IOS.

Locate the apps installed on your device and open **Google Classroom**. Make sure you are signed in to your Richard Hale school account

Select the class streaming a live lesson

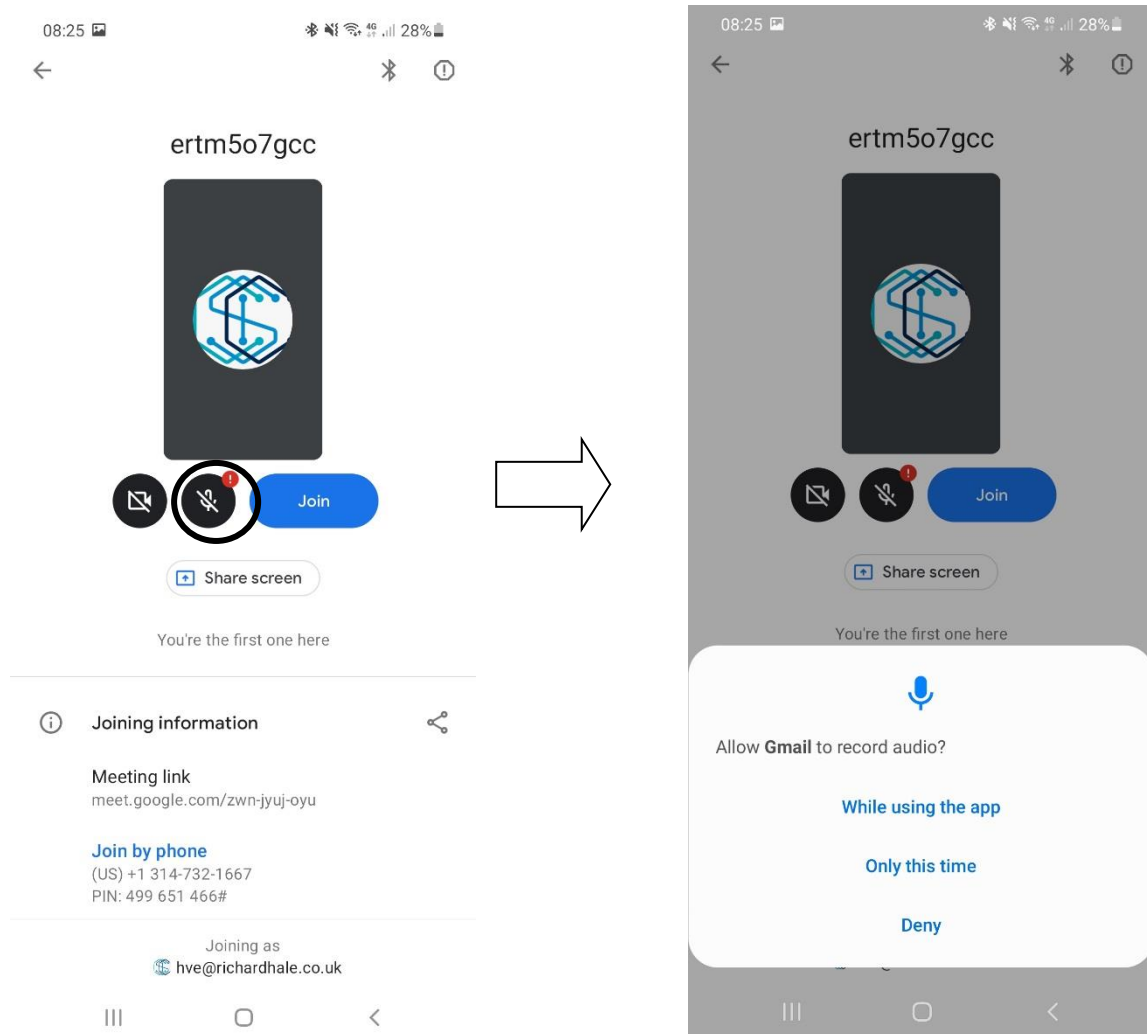

To access the live lesson (Google Meet), select the **camera** icon

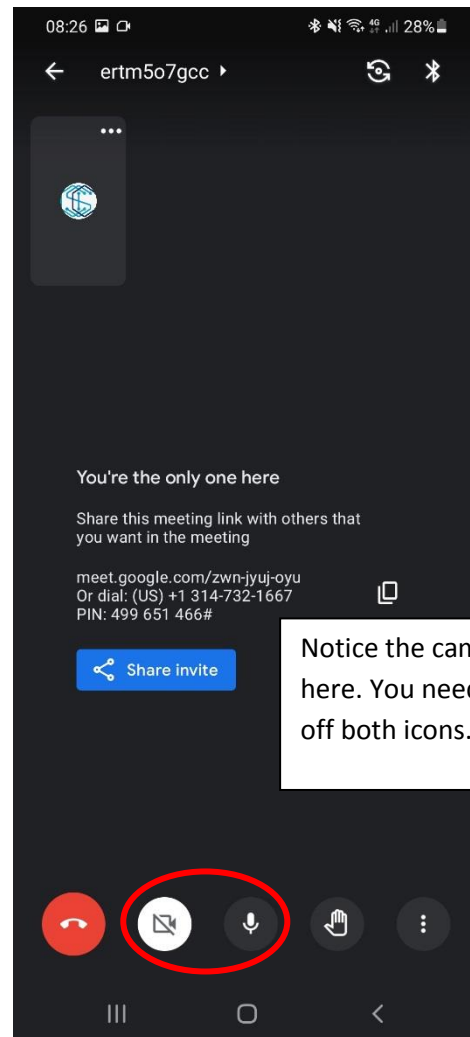

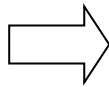

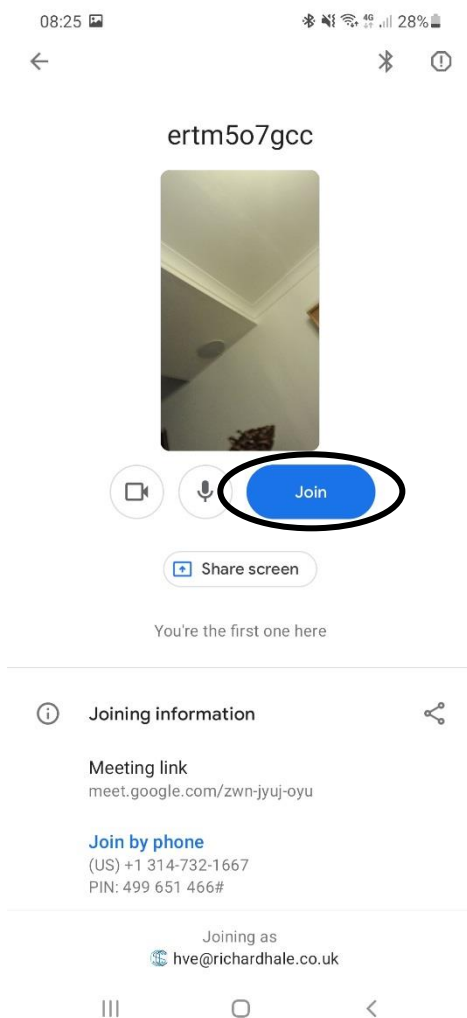

This will automatically launch the **Google Meet** app you installed previously. You **may** be asked to **confirm** the launch of the app on the first occasion this is done.

Google Meet app has launched below.

If you notice a red exclamation mark next to the camera or microphone, please click it to allow access.

Click **Join**. Make sure you have **turned off** your camera and **muted** your microphone unless you are asked by the teacher.

Notice the camera is turned off here. You need to mute/ turn off both icons.
