What are your 3 favourite words in German?

I love *Wischwaschanlage* and *beschwipst!*

1..

2..

3..

Arbeit

In the topic of work we will look at the situation in Germany regarding employment. The Germans have a reputation for being very hard working with many rules and regulations in the workplace. What is their role in the economy of Europe? And the world?

Before we get into all that when you are back at school, watch this movie. It depicts a traditional German Arbeiter who provides for his family and three young rebels who are out to change the world! Jan, Peter and Jule are living their rebellious youth. United by their passion to change the state of the world the young friends lead a silent revolution as the self-styled 'Edukators'. It's one of my favourites, I hope you enjoy it. <https://www.youtube.com/watch?v=MB1UMfC8koc>

After watching the movie, write a review of the film - 150 words in German.

That's it, you are at the end of our bridging work. We hope you enjoyed it and we really look forward to seeing you in September. If you have any questions in the meantime, don't hesitate to get in touch! Bis bald und mach's gut!
