Purpose and scope

This policy sets out the school's commitment to supporting, monitoring and mentoring staff appointed as Early Career Teachers (ECTs) with the aim of helping them fulfil their professional duties and meet the requirements for satisfactory completion of the statutory induction period which is the equivalent of 2 school years.

From September 2021, schools need to:

- Register their ECT for statutory induction with an Appropriate Body (AB)
- Ensure that induction is underpinned by the Early Career Framework (ECF). Ensure ECTs receive a reduced timetable in year 1 (10%) and in year 2 (5%).
- Appoint both an Induction tutor and a mentor to support induction.

This policy does not form part of any employee's contract of employment and it may be amended at any time.

Roles and Responsibilities

Appropriate Body (AB)

The school will appoint an Appropriate Body to quality assure the induction process from commencement through to final assessment and certification from the Teaching Regulation Agency (TRA). Progress reviews will be completed and submitted online towards the end of Terms 1, 2, 4 & 5. Formal Assessments will take place in Terms 3 & 6 (final).

Induction Lead

The induction lead (currently Huw Davies, assisted by Philip Camm) will oversee the induction process in line with the statutory guidelines, ensuring that the ECT is registered with an AB, appropriate mentoring provision is in place (including provision of an ECF-based induction programme), assessments are completed and recommendations are made to the AB on whether the ECT has met the relevant Teachers' Standards.

Induction Tutor

The school will assign an Induction Tutor (who holds QTS) to provide regular monitoring and support, and coordination of assessment throughout the induction process. The Induction Tutor will carry out regular progress reviews and conduct formal assessments where they will make rigorous and fair judgements about the ECT's progress in relation to the Teachers' Standards. They will also need to ensure that they can recognise when an ECT is experiencing difficulties and when early action is needed.

Mentor

The role of the mentor is discrete from the role of Induction Tutor. The school will assign a mentor who holds QTS and leads regular mentoring sessions with the ECT, providing a dedicated source of support, guidance and coaching for the ECT's professional development, including their engagement with the ECF programme. The mentor is not responsible for any aspect of the ECT's formal assessment.

ECT

The ECT will be expected to participate in all tasks associated with the induction process and to actively engage with any support, guidance, feedback and training provided.

Induction Process

The school will meet the requirements of the DfE statutory guidance on ECT induction by providing the following:

Adherence to statutory induction guidance

- An Induction tutor who holds QTS and has the necessary skills and knowledge to work successfully in this role. The induction tutor will have access to induction tutor training in order to understand the expectations of this role.
- A mentor who holds QTS and has the necessary skills and knowledge to work successfully in this role. The mentor will engage with ECF programme mentor training in order to understand the expectations of this role.
- Appropriate work tasks, experience and support to enable the ECT to demonstrate satisfactory performance against the relevant Teachers' Standards by the end of the induction period.
- Regular professional reviews of progress where the ECT is monitored and observed by the induction tutor who sets and reviews development targets against the Teachers' Standards.
- A reduction in timetable to enable the ECT to undertake activities related to their induction (in line with paragraph 2.19 of the statutory guidance). This will be in the format of 10% release time in the first year of induction and a 5% timetable reduction in the second year.
- A personalised programme of development, support and professional dialogue.
- Regular observations of the ECT's teaching, including written and oral feedback on all aspects of their practice.
- Opportunities to observe experienced practitioners.
- Access to relevant training and development activities.

- An induction programme that is underpinned by the ECF. The school must offer an ECF programme that supports the ECT to apply the knowledge and skills set out in the Early Career Framework into their own practice.

An Early Career Framework (ECF) based induction programme

The ECF is not an assessment tool and an ECT's progress should not be judged against their engagement with the ECF training programme.

There are three approaches schools can choose from to enable the delivery of an ECF based induction. ECF based training programme;

- Full induction programme – A funded, provider-led programme offering a blend of face-to face and online training for early career teachers and their mentors based on DfE accredited provider materials.
- Core induction programme – Schools use freely available DfE accredited provider materials to deliver their own ECF programme of training for their ECTs and mentors.
- School-based programme – Schools design and deliver their own ECF based induction programme – this includes selecting elements of the different core programmes.

Richard Hale has initially opted for the Full Induction programme, but reserves the right to change to another programme if it is deemed more appropriate.
