

400 YEARS OF EXCELLENCE

Remote Learning Policy

Policy approval date	July 2023
Policy review date	July 2024
Policy Lead	Matthew Greenwood, Deputy Headteacher
Governor or SLT approval	SLT
Governor committee responsible for policy	Curriculum

Aims

This remote learning policy aims to:

- Ensure consistency in the approach to remote learning for pupils who are not in school
- Set out expectations for all members of the school community with regards to remote learning
- Provide appropriate guidelines for data protection

Use of remote learning

All pupils should attend school, in line with our attendance policy. Remote education is not viewed as an equal alternative to attendance in school.

Pupils receiving remote education will be marked absent in line with the Pupil Registration Regulations.

We will consider providing remote education to pupils in circumstances when in-person attendance is either not possible or contrary to government guidance.

This might include:

- Occasions when we decide that opening our school is either:
 - Not possible to do safely
 - Contradictory to guidance from local or central government
- Occasions when individual pupils, for a limited duration, are unable to physically attend school but are able to continue learning, for example because:
 - They have a serious infectious illness
 - They are preparing for or recovering from some types of operation
 - They are recovering from injury and attendance in school may inhibit such recovery
 - Their attendance has been affected by a special educational need or disability (SEND) or a diagnosed mental health issue

The school will consider providing pupils with remote education on a case-by-case basis.

In the limited circumstances when remote learning is used, we will:

- Gain mutual agreement of remote education by the school, parents/carers, pupils, and if appropriate, a relevant medical professional. If the pupil has an education, health and care (EHC) plan or social worker, the local authority (LA) will also be involved in the decision
- Put formal arrangements in place to regularly review it and identify how to reintegrate the pupil back into school
- Identify what other support and flexibilities can be put in place to help reintegrate the pupil back into school at the earliest opportunity
- Set a time limit with an aim that the pupil returns to in-person education with appropriate support

Remote education will not be used as a justification for sending pupils home due to misbehaviour. This would count as a suspension, even if the pupil is asked to access online education while suspended.

Data protection

Accessing personal data

When accessing personal data for remote learning purposes, all school staff members will:

- Use only Google Classroom and Google Meets to set work
- Use only devices provided by the school for setting and monitoring work

Processing personal data

Staff members may need to collect and/or share personal data as part of the remote learning system. As long as this processing is necessary for the school's official functions, individuals will not need to give permission for this to happen. The school will follow its data protection policy / privacy notice in terms of handling data, which can be found on the school website.

However, staff are reminded to collect and/or share as little personal data as possible online, and to remind themselves of their duties in terms of data protection in accordance with the school's policies and procedures.

Remote Learning through other providers

Where necessary, the school may work with other providers or third parties to provide remote learning for limited periods. In these cases, the new provider will provide their own expectations, terms and conditions for remote learning.
